Please limit your responses to the following 4 questions to no more than 200 words per question.

1. Tell us about your positions on the environmental problems facing Fresno County. For example, what actions should the Board of Supervisors take to be more proactive in addressing air-quality issues in the Central Valley? Do you support “fracking” regulations or a ban on “fracking” in Fresno County? Etc.

We must make choices that will leave our community and environment healthy for our future generations. I am supportive of doing what we can to improve air quality. One thing we can do is promote better planning of development. I oppose fracking.

2. What is your position on high-speed rail? What else could be done to improve accessible and affordable public transportation throughout the county?

I support high speed rail and further investment in public transportation.

3. Given the national debate on immigration, what steps, if any, should the Board of Supervisors take to support and defend our immigrant community? In particular, what should the Board do to defend our undocumented neighbors and Deferred Action for Childhood Arrivals (DACA) recipients?

I support DACA, it is not the job of local law enforcement to enforce immigration laws.

4. What specifically do you plan to do to ensure Fresno County’s stock of affordable, safe and decent housing increases significantly?

I will support investment in affordable housing. We need to set housing goals to encourage smart growth.
